July 2004

CSF Meeting

Mars Alliance Church, Rt. 228

Job's Park
Dr. Steve Rodabaugh

Look at the behemoth, which I made along with you and which eats grass like an ox. Job 40:15 NIV

If earth and its life are young in geological terms, and Scriptures are true as understood by normative hermeneutics, and if man and dinosaurs were created together on the Sixth Day as Scriptures say, then what man or men are portrayed as having seen dinosaurs?

Join us on July 20th as Dr. Steve Rodabaugh explores the evidence in the book of Job that man and dinosaurs lived together. Steve's presentation was well received at an evening session of the ICC held last year.

You will not want to miss this interesting presentation. Be sure to bring your Bibles so that you can follow along.
