Evolution's Blunders, Frauds and Forgeries

Thurs. May 17 7:00 PM
One hour presentation + Q&A
by Jerry Bergman Ph.D.

at Providence Presbyterian Church
77 Phillips Lane, Robinson Twp., PA 15136

Based upon Dr. Bergman's new book
available at www.creation.com

WHY ATTEND?

- ★ You will hear numerous examples of how belief in evolution has been advanced through the years via evidences that have now been debunked and some shown to be outright hoaxes intended to trick the public into believing in evolution.
- ★ You will understand how fraud, deceit, and manipulation of the data to fit researchers' desired outcomes is greatly influenced by the drive for money, tenure, promotions, grant renewals, professional rivalry, and the need to prove one's own theories and ideas.
- ★ If you are open-minded and earnestly research this issue you will discover that molecules-to-man evolution is the greatest deception ever imposed upon the public by the scientific community and educational establishment. The good news is that you are a special creation of God, who loves you and desires to have a relationship with you. This presentation may change your life.

Jerry Bergman, Ph.D.
Author,
Speaker,
Professor

Jerry Bergman has earned five masters degrees and two Ph.D.s (one in human biology). He taught biology, genetics, chemistry, biochemistry, anthropology, geology, microbiology and other subjects at the college level for over 47 years. He has taught at the Medical College of Ohio where he was a research associate in the department of experimental pathology, and six years at the University of Toledo, and seven years at Bowling Green State University. Dr. Bergman is a graduate of the Medical College of Ohio, Wayne State University in Detroit, The University of Toledo, and Bowling Green State University. He has over 1200 publications, mostly in the science area, in 12 languages and 43 books and monographs. He was also a consultant for over 20 science text books, mostly in the area of biology and biochemistry. Dr. Bergman has presented over one hundred scientific papers at professional and community meetings in the United States, Canada, Europe and Africa. He is well known for his book, *Slaughter of the Dissidents*, where Bergman documents how the evolutionary establishment maintains its dominance by waging a war of intimidation to suppress oppositional points of view. Having a zero-tolerance for Darwin doubters, they utilize fear, ridicule, unjust denial of tenure, job loss and other nefarious tactics to silence those who fail to embrace evolution.
